DETAILED ACTION

Election/Restrictions

1. Applicants' Amendment filed on 4/04/05 has cancelled claims 1-26 and added new claims (Claims 46-57), which then necessitate new ground of Restriction presented in this Office action.
2. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species I: an embodiment of forming electrical component in the via, Figures 16A & 16b, Claims 27-45.
- Species II: an embodiment of forming an electrical device, Figures 17-18B, Claims 46-49;
- Species III: an embodiment of forming a device within a via, Figures 20A-21, Claims 50-53;
- Species IV: an embodiment of filling resistive material in a via of a substrate, Figures 11 & 12, Claims 54-57.

Applicants are required under 35 U.S.C. 121 to elect a single disclosed species for

prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, it appears that there is no generic claim.

Applicants are advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

If claims are added after the election, applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicants traverse on the ground that the species are not patentably distinct, applicants should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. A telephone call was made to the office of Richard E. Billion (612-373-6977) on 5/02/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tim Phan whose telephone number is 571-272-4568. The examiner can normally be reached on M - F, 9AM - 5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 571-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
